Renix (Renix Electronique) was a joint venture by Renault and Bendix that designed and manufactured automobile electronic ignitions, fuel injection systems, electronic automatic transmission controls, and various engine sensors. Major applications included various Renault and Volvo vehicles. The name became synonymous in the U.S. with the computer and fuel injection system used on the AMC/Jeep ...

## **Renix - Wikipedia**

The C101 connector on 1987 and 1988 Renix Jeeps was a source of electrical resistance when the vehicles were new. So much so that the factory eliminated this connector in the 1989 and 1990 models. The factory recommended cleaning this connector to insure the proper voltage and ground signals between the ECU and the fuel injection sensors.

1987 - 1990 4.0L Fuel Injection Manual - posted in Engine / Trans.: This is the Daimler-Chrysler technical doc on how to troubleshoot and repair the Jeep Renix fuel injection system. Jeep Renix Fuel Injection System ('87-'90)

## **1990 4.0L Fuel Injection Manual - Erie Jeep People Forums**

The XJ 4.0's before 91 used the Renix fuel injection system. This is a completely different system than the 91+ HO (High Output) system. Some parts from HO engines can be made to work with the Renix system but not the sensors. Some like the Renix and some do not it does use more sensors than the HO system so is more work to swap over.
