papers presented together with 2 invited lectures were carefully reviewed and selected from 90 submissions for inclusion in the book.

Web Engineering by Soren Auer

Web engineering is still a vague concept to most. The medium is little more than 10 years old, and characterised by continual changes. Yet ambitiously, Suh tries to offer a coherent understanding of how to use the Web. Not from the point of the end user, though this is surely important and cannot be ignored.
